

## PROGRAM DESCRIPTIONS

### Beginner's Clinic: (30 Min.)

Is designed to be a fun introduction to the sport of hockey for players age 3-7.

• **The Beginner's Clinic** is intended for **FIRST** or **SECOND YEAR** skaters with little or no on-ice experience. The stick and puck will be introduced, but simple drills that teach proper skating technique are the main emphasis. Players will work on balance, skating posture, stopping, turning, pushing, and gliding.

**It is mandatory for all classes that players have a caged hockey helmet, hockey gloves, stick, elbow & knee pads, as well as a neck guard.**

We recommend always consulting an expert to ensure equipment is properly fit.

### Pre-Novice Clinic: (30 Min.)

Is designed for player's ages 4-12 with some basic skating experience.

• **The Pre-Novice Clinic** will teach the fundamentals of skating technique as well as introduce basic hockey skills. After a brief warm-up, the first 25 minutes will focus on balance, stride, edge work, crossovers, and transitions, as well as puck and shooting skills.

Attention to detail and high tempo drills are the foundation for this group, making it a destination for many players looking to supplement their weekly team skates.

**\*No player will be allowed on the ice without equipment for their own safety!**

## 2018-2019 SCHEDULE

### Birmingham Ice Arena

#### Series I - (9 weeks)

• Sept. 10 – Nov. 5, 2018

## Program Directors

### Matthew Gadlage

has coached many area travel hockey teams. He has 31 years of experience as a goalie and has been a member of The Player's

Edge staff for the past 14 years. He is currently the Co-Owner of the program with his wife, Angelika. Together, They believe in the importance of the most overlooked aspect of hockey- SKATING, and advocates, "With hard work comes good results."

### Angelika (Hauser) Gadlage

is an elementary school teacher with 29 years of skating experience. She has been a member of The Player's Edge staff since its founding 21 years ago, coaching all levels, from tots to travel teams. Angelika believes, "That if you can't skate, you can't play."

## PHILOSOPHY

All too often, hockey players learn to play hockey long before they learn to skate.

The purpose of our program is to teach sound skating technique to

both the beginner as well as the more advanced player.

The beginner will learn skating principles that form good habits from the start, while the more advanced player will improve and strengthen skating fundamentals.

The idea is to so in-grain good skating habits, that they become second nature to the player.

This achieved, the player is prepared to excel in other aspects, of the game. As a result, they will enjoy

the game of hockey more and be stronger, more productive members of their teams.
