

Ruby Stinson (1916 - 2011)

Ruby Stinson in later life

Ruby was the only person I ever let call me "Suzie."

After a knee replacement, at around age 80, we would walk almost every night to the corner, with her holding my arm.

Up until the age of 95 she was going strong. She would always call to me, "Suzie, get to work!"

My one regret is that she never taught me to bake a pie.

Why I was inspired: Ruby Stinson was my idol.
