****Please note that if a residential condensing unit is to be placed in the side yard, the City requires that a copy of a certified survey accompany the application showing exactly where the proposed unit will be placed and indicate the distance from the edge of the unit to the property line. Also note that any exterior change to a commercial or multi-family building requires prior approval from the Planning Department. This can be obtained administratively or by appearing before one of their boards. Examples of these changes could be, but not limited to, new penetration for vents or exhaust fans, roof top mechanical units or outdoor chiller unit.**

Please make check payable to "City of Birmingham"

Note: An administrative fee equal to the permit fee may be charged in addition to the permit fee when work is started without first obtaining the permit.
