**02-33-15                   PUBLIC HEARING – SPECIAL LAND USE PERMIT AMENDMENT  
                                   SHELL GAS STATION, 33588 WOODWARD AVE**

Mayor Sherman opened the Public Hearing at 9:20 PM to consider an amendment to the Special Land Use Permit for 33588 Woodward, Shell Gas Station.

City Planner Ecker explained that the applicant submitted a brownfield plan seeking reimbursement of funds for the cleanup of the site. The brownfield plan showed some significant contamination on site. The cleanup proposed still left some contamination issues of soil and vapor. After reviewing the plan, the city attorney suggested language be inserted into the Special Land Use Permit (SLUP) that deals with the cleanup of the site. She stated that the concern is the contamination of site and how far it has flowed off site.

Jeff Haynes, City Attorney, explained that MDEQ had flagged this site as a more serious site amongst those they have seen and have committed funds to do further investigation. The applicant has agreed to do soil gas testing to determine if there are vapors coming off of the contamination that would be a problem inside the building. He stated that the SLUP conditions require contaminated soil be removed from the site and a system to remove the vapors be installed if it is found to be necessary. This would be done concurrent with the construction.

In response to a question from Commissioner Rinschler, Mr. Haynes explained that the proposed excavation in the brownfield plan was not going to be sufficient to remedy the major problems of the site. The current owner, under the current law is not liable for cleanup. It was advantageous to talk with the owner about increasing the scope of the remediation and using TIF funds. He confirmed that the language in the SLUP binds the current owner. He noted that the owner has agreed to this.

Ann Jamison, AKT Peerless, explained that if the MDEQ does not identify a viable liable party and additional contamination is identified offsite, the refined petroleum fund can be utilized by the MDEQ. If any contamination is found off-site, the current owner under his due care

obligations will clean up his portion and the state could step in and address anything that had potentially gone off-site. She explained for Commissioner McDaniel that the next step is to get vertical and horizontal schematics.

The Mayor closed the Public Hearing at 9:41 PM.

**02-34-15                   2014 LIQUOR LICENSE REVIEW AND  
                                  2015 LIQUOR LICENSE RENEWALS**

City Clerk Pierce explained that there are thirty-two establishments operating with a Class C liquor license, one establishment operating with a Class B Hotel License and one establishment operating with a micro-brewery license. She explained that City staff and the Oakland County Health Department, performs annual inspections on each establishment.

She noted that the establishments where violations were found received notification of the violation. Staff will continue to work with these establishments to clear up any outstanding violations. Ms. Pierce explained that the Commission may approve the renewal of all the licenses or set a Public Hearing to consider the objection to the renewal of one or more licenses based on specific reasons as stated in the City Code.

The Commission discussed the establishments with year round outdoor dining. Mayor Pro Tem Hoff pointed out that those operating only half of the year are at a disadvantage to those operating a full year.

The Commission expressed concern with the establishments which are delinquent in their water and tax bills and have made no attempt to make a payment. Mayor Sherman noted that one establishment has not fully complied with the terms of the Special Land Use Permit. Ms. Ecker confirmed that the establishment did contact her and they are researching lighting in order to be compliant.
