07-149-15 GREENWOOD CEMETERY RULES AND REGULATIONS AND FEE SCHEDULE AMENDMENT

Ms. Pierce presented the proposed revisions to the Greenwood Cemetery Rules and Regulations and fee schedule. She explained that the Greenwood Cemetery Advisory Board (GCAB) discussed the potential to use the green space in the cemetery for additional burials. After review by the Historic District Commission, the GCAB recommended that the City offer the graves in the green space in Sections B, C, D, K, L and O for sale, limiting to flush markers only to maintain the visual landscape, set a lot resale policy and pending the results of ground penetrating radar. She explained that the contractor agreed to do the ground penetrating on the green space at no cost to the City. Ms. Pierce explained that the lot resale policy would require individuals who purchase the new graves and later wish to sell them, to sell them back to the City for 50% of the purchase price. However, the new graves could be transferred to family with supporting genealogical documentation. Ms. Pierce explained the process to be used to sell the new graves would be based off the Interest List. Individuals interested in purchasing graves would have to add their name to the Interest List through the City or the contractor.

City Manager Valentine confirmed for Mayor Pro Tem Hoff that he authorized the contractor to move forward with the ground penetrating radar as there was no cost to the City. In addition the timeframe for its completion coincides with the recommendations coming before the Commission to move this process forward. He noted that there are over 100 individuals on the Interest List and others in the community interested in obtaining a grave at Greenwood.

In response to a question from Mayor Pro Tem Hoff, Mr. Valentine explained that the recommendation would use existing unsold, unidentified spaces that have not been utilized where the reclamation process would affect previously sold graves.

Commissioner McDaniel questioned if the layout is unusual. George Stern, chairperson of the GCAB, explained that the more modern era designed cemeteries were designed without natural features such as walking paths and nature features.

Ron Buchanan, 1280 Suffield, expressed concern with the visual impact in Sections B and C when fully implemented. He also expressed concern with the orientation of the graves. He suggested eight graves per row be left vacant to enhance the green space.

Pam DeWeese, 932 Purdy, agreed with Mr. Buchanan. She noted that the GCAB has two goals which include finding graves for people and preserving the aesthetics and historic integrity of the cemetery.

Darlene Gehringer, 1108 West Maple, stated that the reference to the designated contractor in the Rules and Regulations is not needed. She stated that she still wants ground penetrating radar done on the entire cemetery. She agreed with Mr. Buchanan.

In response to a question from Commissioner Dilgard regarding ground penetrating radar on the entire cemetery, Mr. Valentine explained that the recommendation from the GCAB was to do ground penetrating radar for these sites and the entire cemetery and remains the same.

Commissioner Rinschler expressed support of the additional space. He stated that the phase in idea is not a bad idea until we see how fast the graves are being sold.

Mayor Pro Tem Hoff expressed concern and stated that Sections B and C should be left as it because it is historic. The other sections would get us started. She stated that the City is not in dire need of money. We could always go back and add some in B and C.

Commissioner Nickita pointed out the balance between an aesthetic issue with accommodating all the people waiting on the Interest List. He noted that the drawings do not show the actual aesthetic impact.

Commissioner Rinschler noted that there would not be 500 markers immediately. He stated that if there was a phase in plan, it could be modified. He stated that he would not want to move forward with less than a couple hundred graves.

MOTION: Motion by Hoff, seconded by Moore:

That the Commission set a time to meet at the cemetery to visualize the proposed changes.

The following individuals expressed support of the motion:

Darlene Gehringer

Pam DeWeese

George Stern

The Commission agreed to meet at the cemetery before the next City Commission meeting at 6:30 PM.
