

ECO-FRIENDLY LANDSCAPING for WATER QUALITY

A workshop designed for those with little to no experience gardening using native plants.

Participants will learn how to:

- Design a garden with native wildflowers and plants
- Protect water resources and manage storm water runoff
- Attract beneficial birds and butterflies to their garden

**Tuesday, April 16, 2019
6:00 P.M. to 9:00 P.M.**

*MSU Extension Assembly Room
VerKuijen Building (Entrance E)
21885 Dunham Road
Clinton Township, MI 48036*
